The Marshfield United-NSL Select Team program is hoping to enhance the playing experience and development of all the kids in the program.

There will be some changes but the core program of creating a platform for the youth soccer players of Marshfield to have more training and competitive games will remain the same.

There will be a focus on individual player development which will then greatly increase the overall team performance.

The hope is to create a program that improves all of the players involved that kids enjoy being a part of.
